Premiered in 1984, *The Terminator™* revolutionized science fiction and horror cinema with an apocalyptic vision of the future that showed the dark side of technology and artificial intelligence.

The futuristic nightmare of a young director, James Cameron, became one of the most famous stories in the history of cinema.

HIS ROLE AS TERMINATOR WOULD DEFINE ARNOLD SCHWARZENEGGER'S CAREER IN BOTH CINEMA AND POLITICS: HE WAS NICKNAMED THE "GOVERNATOR" WHEN HE STOOD FOR GOVERNOR OF CALIFORNIA.
